

Yes im getting this done day of ]:

Note: other acc is my school email...

So

playing on the first game I made of a person trapped in an art gallery:

So adding onto that is a ghost lost and haunting the internet:

Basing it off of my own online stuff the thing would be based off of a ghost

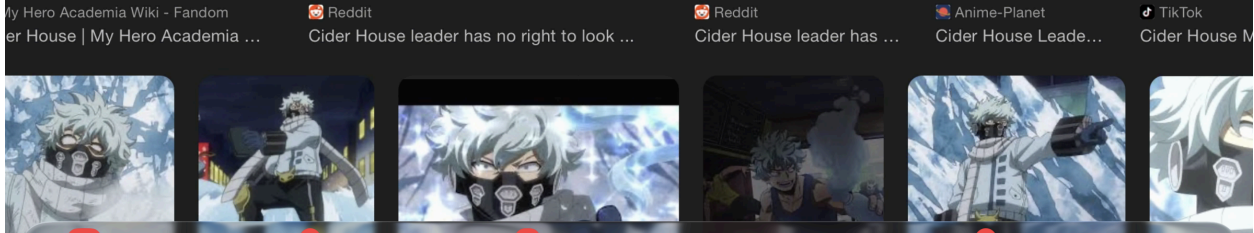

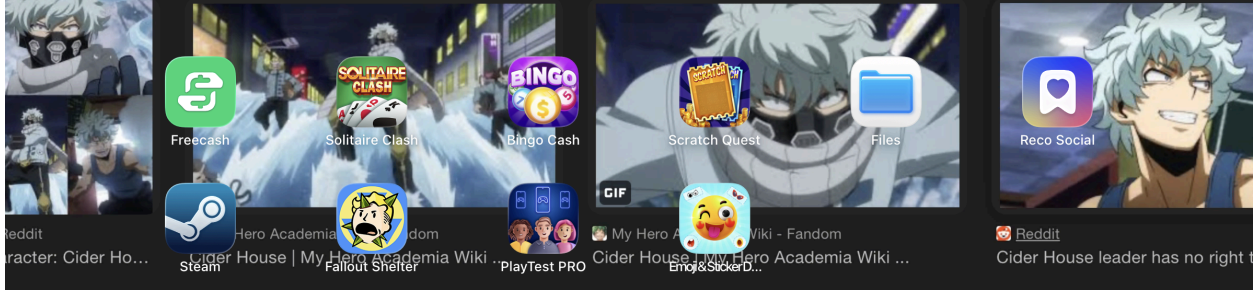

This graphic is only one of many

This is based off of the original idea from [The Gallery](#)

The idea is that the player character would be exploiting through the ipad ending with the player hitting safari and falling through the internet and thats for the next game

*This graphic is a placeholder i will redsing it*
