Random bystander

Martin,

Just random person that's done with
Kelvin, and his bad luck. He can help
others by giving his luck, or doing challenges
and the higher the risk the greater the reward.

Kelvin

Kelvin the known menace to society
that brings bad luck wherever he is. The
more he stays in one place the weirder things
become like cars breaking down, people
miss placing items, or losing money from
their wallet.

Stages

Kelvin appears in a busy street

bad luck events:

street performers drop instruments
