Commi drop is the main character whose world is being corrupted by the dream virus filling the game full of water is wet spam.

Can he save the motherland from such blasphemy?

## DREAM VIRUS

The dream virus was created by angry capitalists who believed dream didn't cheat at his epic most amazingist speedrun. They decided to hit the world at its core. Water is Wet. A sentence that makes a grown man cry.

Water is wet goes against everything the communist believe in so it hurts their very core.
