

DLC Game dialogue

Ideas

- Normal start screen
- The cutscene just has the word cutscene in the background
- Character is either a rip off of something, still miku, or just a block
- Mention “at least we had the budget to use the same awesome music/the only good thing about the game/we could use the music but nothing else.”
- Have the level just be a super simple and boring platformer. One platform
- Have awesome music play when touching the star
- Narrate Mario music song

***Disclaimer: dialogue not exact, some creative interpretation occurred**

Start screen

We did it guys.

Everybody hated the Miku game soooooo much that they had to make a DLC for it....

And I'm the main character!

ME THE NARRATOR!!!!

My dad might actually return my calls now!

Now all our budget kinda went into the actual game which as you saw wasn't a lot

soooo there might be some tinyyyy, littleeee, very big cuts.

But thats ok its just a DLC,

or ratherrrrr a bootleg reboot.

But who cares, it's about me!

But with all that out of the wayyyy

We can start the game!!!

And this time I dont have to sound stupid!!!

I can introduce the game however I want!!

Sooooooo with that being saaaaaid.....

(deep voice) LET'S GET INTO THE GAAAAAAAME!!!!!!!

Man that was so much cooler!

Cutscene

Oh

My

God.

sniffle (teary eyed) It's beautiful!

I have never seen anything like it.

It's.....

Its

Perfect.

They even used some of the special music!

just for me.

Wow

I don't even have anything else to say.

Lets just go see the game now.

Long *sniffle*

Game

Woah

I mean I know they had budget cuts but

This

This has to be where all the money went!

These next level graphics!

And the amazing artwork.

They even made me the main character!

Whoever made this truly deserves an oscar or something

Wow

Again I don't even have much else to say I just want to see what happens if you beat the game

So let's just do it

Lets go get that beautiful star.

Star get

Woahhh!

That was amazing!!!

I don't know how they found my audition song for Mario brothers 2 but I'm glad they did because it fits perfectly!

Nintendo didn't know what they were doing when they turned me down.

But yeah i guess that's it.

You win.

Congrats

Personally I think that was the best game ever but you know just a fact.

Sooo yeah..... Oh wait what's that in the corner?

They made another DLC?!

I wonder if they made me the main character for that one too!!!!

Quickly click it!!!!

spoiler alert The newest DLC does not actually exist. It is just a link to a RickRoll. I apologize in advance.
